

# LOG Report

## Details of an open space casual naturism activity

To enable NAG to compile credible UK data on public attitudes to casual open space naturism we welcome your contribution. You may have been involved in such an activity, either alone or with other naturists. The data collected will enable NAG to use it in support of a number of its projects, particularly those, which require local authorities and the police to have a better understanding that naturism is not harmful. You may be aware that NAG works with other naturist bodies and with individual naturists.

By taking just a few minutes to complete this Form you will be helping the naturist cause in the UK. The more complete your answers are the more helpful it will be. We welcome all contributions to produce the most comprehensive and authoritative picture of the current situation. Please use a separate Form for each separate 'public encounter' even if on the same day.

NAG holds all data on UK-located servers in full compliance with the Data Protection Act. Data and analysis published by NAG will only be of aggregated statistical information and brief anonymous quotations. Forms and the full data will only be accessible to NAG officers and accredited researchers. NAG will maintain your own confidentiality when making comments but to enable the data that you give to be creditable it will require you to sign the Declaration at the end of the Form.

*[Please save this document on a computer or laptop desktop, and complete by using the grey fields or select the box according the answer required]]*

1. Date of naturist activity: (DD/MMM/YY) Time of day: (HH:MM AM/PM)

How long for? (In minutes)
