

hate crime

I am one of the organisers of the London World naked bike ride, I usually organise the Regents park start.

This year there was no ride due to covid restrictions, However on last years ride (2019) there was a serious incident the ride was as usual held on the 2nd Saturday in June (June 8th)

I was leading a group of riders about (150) from Regents park on our usual route as we entered Piccadilly circus we joined the Hyde park start(perfect timing) . The 2 starts joined and we cycled down Haymarket on to Trafalgar sq our route takes us down Whitehall.

As we entered Whitehall a group of people blocked Whitehall shouting various insults including ,but not restricted to paedophiles perverts and screaming what about the children. some of these people were carrying the union flag and they were aggressive.

fortunately the Police were at hand and forced a pathway through for us. I think that the Police had fore knowledge so they were at hand Thankfully.

Just in case you did not know the union jack is only the union jack when flown from the jack stave of a frigate at all other times its the union flag.
